APRIL IS MATERNAL AND CHILD HEALTH MONTH

Rotary International's new monthly theme for April is Maternal and Child Health!

Every day mothers risk their lives giving birth and millions of children die each year from treatable, preventable causes. At least 7 million children under the age of five die each year due to malnutrition, poor health care, and inadequate sanitation. To help reduce this rate, Rotary provides immunizations and antibiotics to babies, improves access to essential medical services, and supports trained health care providers for mothers and their children. Rotary's projects ensure sustainability by empowering the local community to take ownership of health care training programs.

Maternal and Child Health Care is also recognized as one of Rotary's Six Areas of Focus.

Let's save our planet

Dear Fellow Rotarians,

At the 1990 Rotary International Convention in Portland, Oregon, then President-elect Paulo Costa told the gathered Rotarians, "The hour has come for Rotary to raise its voice, to claim its leadership, and to rouse all Rotarians to an honourable crusade to protect our natural resources." He declared a Rotary initiative to "Preserve Planet Earth," asking Rotarians to make environmental issues part of their service agenda: to plant trees, to work to keep our air and water clean, and to protect the planet for future generations.

President Costa asked that one tree be planted for each of the 1.1 million members that Rotary had at the time. We Rotarians, as is our wont, did better, planting nearly 35 million trees by the end of the Rotary year. Many of those trees are likely still flourishing today, absorbing carbon from the environment, releasing oxygen, cooling the air, improving soil quality, providing habitat and food for birds, animals and insects, and yielding a host of other benefits. Unfortunately, while those trees have kept on doing good for the environment, Rotary as a whole has not carried its environmental commitment forward.

That is why, at the start of this year, I followed Paulo Costa's example and asked Rotary to plant at least one tree for every Rotary member. My goal was to achieve a good beyond the considerable benefits that those 1.2 million (or more!) trees would themselves bring. It is my hope that by planting trees, Rotarians will renew their interest in, and attention to, an issue that we must put back on the Rotary agenda: the state of our planet.

Environmental issues are deeply entwined in every one of our areas of focus and cannot be dismissed as not Rotary's concern. Pollution is affecting health across the globe: More than 80 per cent of people in urban areas breathe unsafe air, a number that rises to 98 per cent in low- and middle-income countries. If current trends continue, by 2050 the oceans are expected to contain more plastics by weight than fish. And rising temperatures are well-documented: Global annual average temperatures increased by about 2 degrees F (1.1 degrees C) from 1880 through 2015. That this change was caused by humans is not a subject of scientific debate, nor is the likelihood of vast economic and human disruption if the trend continues unchecked. The need for action is greater than ever — and so is our ability to have a real impact.

As past UN Secretary-General Ban Ki-moon put it, "There can be no Plan B, because there is no Planet B." Our planet belongs to all of us, and to our children, and to their children. It is for all of us to protect, and for all of us in *Rotary to make a difference*.

मिसिंग टाइल सिंड्रोम

मिसिंग टाइल सिंड्रोम एक मनोवैज्ञानिक समस्या है जिसमें हमारा सारा ध्यान जीवन की उस कमी की तरफ रहता है जिसे हम नहीं पा सके हैं । और यहीं बात हमारी ख़ुशी चुराने का सबसे बड़ा कारण है।

जिन्दगी में कितना कुछ भी अच्छा हो, हम उन्हीं चीजों को देखते हैं जो *मिसिंग* हैं और यही हमारे दुःख का सबसे बड़ा कारण है।

क्या इस एक आदत को बदल कर हम अपने जीवन में खुशहाली ला सकते हैं?

मिसिंग टाइल सिंड्रोम - एक बार की बात है एक छोटे शहर में एक मशहूर होटल ने अपने होटल में एक स्विमिंग पूल बनवाया। स्विमिंग पूल के चारों ओर बेहतरीन इटैलियन टाइल्स लगवाये, परन्तु मिस्त्री की गलती से एक स्थान पर टाइल लगना छूट गया। अब जो भी आता पहले उसका ध्यान टाइल्स की खूबसूरती पर जाता। इतने बेहतरीन टाइल्स देख कर हर आने वाला मुग्ध हो जाता। वो बड़ी ही बारीकी से उन टाइल्स को देखता व प्रशंसा करता। तभी उसकी नज़र उस मिसिंग टाइल पर जाती और वहीं अटक जाती.... उसके बाद वो किसी भी अन्य टाइल की ख़ूबसूरती नहीं देख पाता। स्विमिंग पूल से लौटने वाले हर व्यक्ति की यही शिकायत रहती की एक टाइल मिसिंग है। हजारों टाइल्स के बीच में वो मिसिंग टाइल उसके दिमाग पर हावी रहती थी।

कई लोगों को उस टाइल को देख कर बहुत दुःख होता कि इतना परफेक्ट बनाने में भी एक टाइल रह ही गयी। तो कई लोगों को उलझन होती कि कैसे भी करके वो टाइल ठीक कर दिया जाए। बहरहाल वहां से कोई भी खुश नहीं निकला, और एक खूबसूरत स्विमिंग पूल लोगों को कोई ख़ुशी या आनंद नहीं दे पाया ।

दरअसल उस स्विमिंग पूल में वो मिसिंग टाइल एक प्रयोग था। मनोवैज्ञानिक प्रयोग जो इस बात को सिद्ध करता है कि हमारा ध्यान कमियों की तरफ ही जाता है। कितना भी खूबसूरत सब कुछ हो रहा हो पर जहाँ एक कमी रह जायेगी वहीँ पर हमारा ध्यान रहेगा।

टाइल तक तो ठीक है पर यही बात हमारी जिंदगी में भी हो तो? तो यह एक मनोवैज्ञानिक समस्या है जिससे हर व्यक्ति गुज़र रहा है।

इस मनोविज्ञानिक समस्या को मिसिंग टाइल सिंड्रोम का नाम दिया गया। Dennis Prager के अनुसार उन चीजों पर ध्यान देना जो हमारे जीवन में नहीं है, आगे चल कर हमारी ख़ुशी को चुराने का सबसे बड़ा कारण बन जाती हैं।

ऐसे बहुत से उदाहरण हो सकते हैं जिसमें हम अपनी किसी एक कमी के पीछे सारा जीवन दुखी रहते हैं। ज्यादातर लोग उन्हें क्या-क्या मिला है पर खुश होने के स्थान पर उन्हें क्या नहीं मिला है पर दुखी रहते हैं।

मिसिंग टाइल हमारा फोकस चुरा कर हमारी जिन्दगी की सारी खुशियाँ चुराता है। यह शारीरिक और मानसिक कई बीमारियों की वजह बनता है, अब हमारे हाथ में है कि हम अपना फोकस मिसिंग टाइल पर रखे और दुखी रहें या उन नेमतों पर रखे जो हमारे साथ है और खुश रहें...

*Keep trying to aspire high but never ignore the blessings you already have, enjoy the life given to you, knowingly/unknowingly its designed by you only!"

T.K. Ruby.

Let's join hands to End Polio Now

Dear Rotarians,

Mothers are happy when their children are healthy.

I'm sure you know that Rotary executes many programmes worldwide for the benefit of mothers and children in the underprivileged sections of our society with the support of The Rotary Foundation. Rotary makes high quality healthcare available wherever possible, so that they can live healthier and longer lives. We expand our access to quality care to ensure mothers and children of poorer families have the same opportunities for a healthy and happy future as the more privileged.

It is shocking that even today, with so many technological advances in medicine and healthcare, an estimated 5.9 million children under the age of five die each year because of malnutrition, inadequate healthcare, and poor sanitation.

As Rotarians, we can prevent such things from happening. The major challenge is to reach children with vaccines. For example, though Rotary's strategic plan includes a strong framework for ending polio, there is an urgent need to re-focus on certain priorities and activities. This includes strengthening disease surveillance, improving the quality of immunisation campaigns and building capacity to respond to an outbreak.

Rotary has mobilised its worldwide resources and literally eradicated polio to the last handful of children. But Rotarians and others have to keep working. People will naturally say, 'Well, it seems to be basically over so let's move on to other things,' but the fact is it is not gone. If we move on and don't fulfil the promised job, we face the danger of the poliovirus returning.

Last year, when I was in Manila for the RI District 3830 Conference, the Rotarians told me that in the year 1979 the Philippines Rotarians and delegates of the Philippine Ministry of Health worked together to implement the oral vaccine for polio immunisation, on an experimental basis. They were supported by hundreds of volunteers who administered the oral polio vaccine drops to children in Manila. When James L Bomar Jr, the then Rotary International President, put the first polio vaccine drops into a child's mouth, he ceremonially launched the Philippine poliomyelitis immunisation effort. Along with Enrique M Garcia, the country's Health Minister, he signed an MoU committing Rotary International and the Philippines Government to a joint five-year effort to immunise around six million children against polio at a cost of around $760,000.

The success of the PolioPlus project set the stage for Rotary's top priority to rid the world of polio. Rotary then introduced its PolioPlus campaign and since then the number of polio cases worldwide has dropped by over 99 per cent, and the virus remains endemic in just three countries — Afghanistan, Nigeria and Pakistan. Still, we need to continue our contribution to End Polio Now. After the last case of polio is reported, it will still take three more years to get the entire world certified polio-free. The immunisation activities will therefore continue to need volunteers and funding through at least 2020. It is the duty of every Rotarian to support Rotary to make a polio-free world. The true victory to humanity will be the day we eradicate the scourge of polio and show the world how Rotary is *making a difference*.

Letters to District Governor & District Editor

Dear Rtn. Ruby ji,

Many thanks for your GML "IBADAAT" No.9 of March, 2018 through your editor Rtn. M.P.Gupta for which I am indeed grateful to you.

I found your GML interesting , informative and most expressive in contents with excellent design and art work with following highlights(with photographs) exemplarily compiled and edited by your Editors Rtn M.P. Gupta and for which my compliments for an excellent job !

GML is an important tool through which the Leader reaches out to his/her readers with information and inspiration . Let me tell you that you have utilised this tool most effectively to motivate and invigorate your Rotarians through your Editors - through ROTARY: MAKING A DIFFERENCE for which you deserve the highest acclamation and admiration from the Rotarians of your District for which my heartiest compliments and congratulations!

Congratulating you once again for your excellent GML(9) and for grand success of your Dist. Conference UDAAN and for your remaining year(17-18) through ROTARY: MAKING A DIFFERENCE and with warm personal regards to you and Veeta ji from myself and Indumati,

We remain,

Your Friends,

JAGMOHAN KATAKIA, PDG Dist. 3040(94-95)

Dear Editor Rtn. Mohinder Paul Gupta,

Congratulations for your excellent GML(9)!...You deserve the highest admiration. acclamation and adoration for the manner in which you are exemplarily compiling and editing each and every issue-a very challenging task!...Please keep it up!....

JAGMOHAN KATAKIA, PDG Dist. 3040(94-95)

Dear Mohinder Ji

Once again, I would like to congratulate you for bringing out a wonderful GML. Your soulful 'devotion' towards Rotary gets truly reflected in your newsletter and is a benchmark for everyone.

Warm Regards,

Assistant Governor Rtn. Bipin Bogra, RC Pinjore Hills.

Ever Respected M.P.Sir,

Once again I could not stop myself in appreciating the immense efforts put by you in the GML. It's highly informative, meaningful and beautiful GML. My regards to you and your team.

PP Rtn. Pradeep Potra, RC Doon Vikas

Respected Rtn. Mohinder Paul Gupta ji.

Just received GML "इबादत" beautifully designed & wonderful coverage of Friendship Exchange Team & District Conference "उड़ान" with the very interesting, informative projects report's by the club's of district 3080.

My best wishes always with you Sir.

With Warm Regards,

PP. Rtn. Rohit Battu- RC Solan Midtown.

Tickets may be picked up at the RLI Exhibit Booth # 916 in the HOUSE OF FRIENDSHIP.

ALL TICKET SALES ARE FINAL.
We regret that payment cannot be accepted at the door and that we cannot offer refunds for breakfast tickets.

Rotary Leadership Institute District 3080

"The Rotary Leadership Institute was founded to assist in improving the Rotary knowledge and leadership skills of the future leaders of our Rotary clubs. We believe that excellent leadership is the key to successful service by our clubs to our communities and our world"

– Dave Linett RID, International Chair

To help Rotarians prepare to take on more responsibility in the work of Rotary. Our District 3080 has started the Rotary Leadership Institute. I am pleased to announce that we have decided to organize first ever RLI (Rotary Leadership Institute) Training Program in our District 3080 from 11th June to 12th June 2018 at Panchkula. The Rotary Leadership Institute (RLI) is a multi-district, grassroots leadership development program of member districts organized into regional divisions in various parts of the world. RLI is a recommended program of Rotary International. RLI seeks to provide quality education in Rotary knowledge and leadership skills to Rotarians interested in developing their Rotary participation and to those identified by Rotary Clubs as having a potential in club leadership. These educational opportunities will teach skills that will benefit the members in their lives and in their volunteer service. You may visit the link below to know more about the RLI:

http://www.rotaryleadershipinstitute.org/index.html

You are requested to register yourself along with your Rotarian friends to take the maximum benefit of the training program.

REGISTRATION FEE:

Participation Fee for each participant:

INR 4500/- (With Accommodation)

INR 2500/- (without Accommodation)

(That includes Room on twin sharing basis, two Lunch, two Breakfast, One Gala Dinner with faculty members and attractive kit with course material.)

Limited 30 Seats are available.

Rotary needs an influx of leadership as club officers every year. It is difficult at the club level to learn enough about Rotary to maximize their club's experience during their year in office. Volunteer leadership skills are often different from business leadership skills. The institute recommends that clubs nominate those Rotarians in their club that exhibit the potential for club leadership, not necessarily as future club presidents. They should preferably be 2-3 years away from a key leadership post.

Let us register ourselves to "Make A Difference" in leadership.

Rtn.Ajay Madan
District RLI Secretary

Rtn.Mohinder Paul Gupta
District RLI Coordinator

Editor's

Mohinder Paul Gupta
District Editor, 2017-18

April is Maternal Child Health Month...

Nine wonderful months of Rotary year 2017-18 have passed with plenty of achievements, by almost all the clubs, yet we have to look back and evaluate what is yet to done, fulfil the goals set by me or by the club, at the end of the year we will have a great sense of satisfaction of achieving the goals. Increase your club's membership and report to R.I. South Asia Office and enter in Rotary Central.

According to the World Health Organization, nearly 830 women die every day from preventable causes related to pregnancy and childbirth. 99% of maternal deaths occur in developing countries where nearly half of all mothers and newborns do not receive care during and after birth. The leading causes of death for children under 5 are birth complications, pneumonia, birth asphyxia, diarrhea and malaria. These deaths can be prevented and treated with access to healthcare services.

Rotary members are working diligently towards this goal through projects that provide education, immunizations, birth kits, mobile health clinics, and much more to **Make A Difference**.

Mohinder Paul Gupta

When a tree stops growing- it is ready to die. As long as it is extending its roots and branches-producing leaves, fruit, and flowers, it is a healthy growing tree, but when the growth stops its days are numbered, even if it may linger awhile in suspended animation.

A Rotary club is like that: it is moving ahead when it is growing. When the growing process ends, the knife and fork club begins.

Charls G. Tennent
(RI President 1957-58)

MONTHLY ROTARY QUIZ APRIL 2018

Q.1: What two major types of programs are promoted by Rotary International?
Q.2: What is the Rotary Volunteers program?
Q.3: What is the focus of the Rotary month of November?
Q.4: What is the Club Assembly?
Q.5: When does the Rotary Legislative Council meet?

** Winner's name and photo will be printed in the next GML.*

ANSWERS MARCH 2018 QUIZ

Q.1: What is the age range for RYLA participation?
Ans: 19 to 30yrs.
Q.2: What does the acronym RYPEN stand for?
Ans: Rotary Youth Program of Enrichment.
Q.3: What was the 100 year update of the Rotary Foundation called?
Ans: The Future Vision Plan.
Q.4: The First President of "Rotary." Who was...?
Ans: Sylvester Schiele.
Q.5: What were the four original avenues of service in Rotary?
Ans: Club, Vocational, Community and International Service.

We congratulate the winner of Rotary Quiz for March

Message

First Lady of the District

My Dear Spouses,

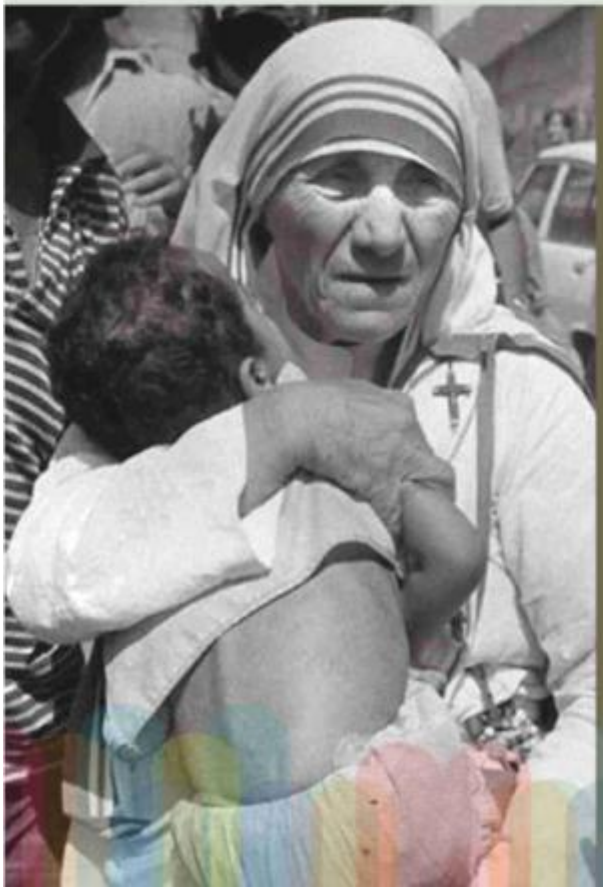
A blink of time and nine months of the assignment of District Governor have passed. Whenever and wherever I meet any Rotarians I can see happiness and satisfaction in their eyes. It makes me feel happy. I have been attending many programmes... projects... everything with only one feeling. God has given me this opportunity to meet people... be with people... make friends and to give my input where I felt.

There are so many opportunities in Rotary. In the Rotary world, the Month of April is dedicated to one of the Areas of Focus: Maternal and Child Health. Goals to improve the lives of mothers and their children include- Reducing the mortality rate for children under the age of five; Reducing the maternal mortality rate; Improving access to essential medical services and trained health care providers their children; Supporting studies related to maternal and child health.

We know that many of these deaths can be prevented if the children and mothers have access to health services and trained health care workers and our district have been resolute in our commitment to providing education, immunization and mobile health clinics. Our dedication in this will be a tribute to our founder Paul P. Harris whose birthday falls on 19th April.

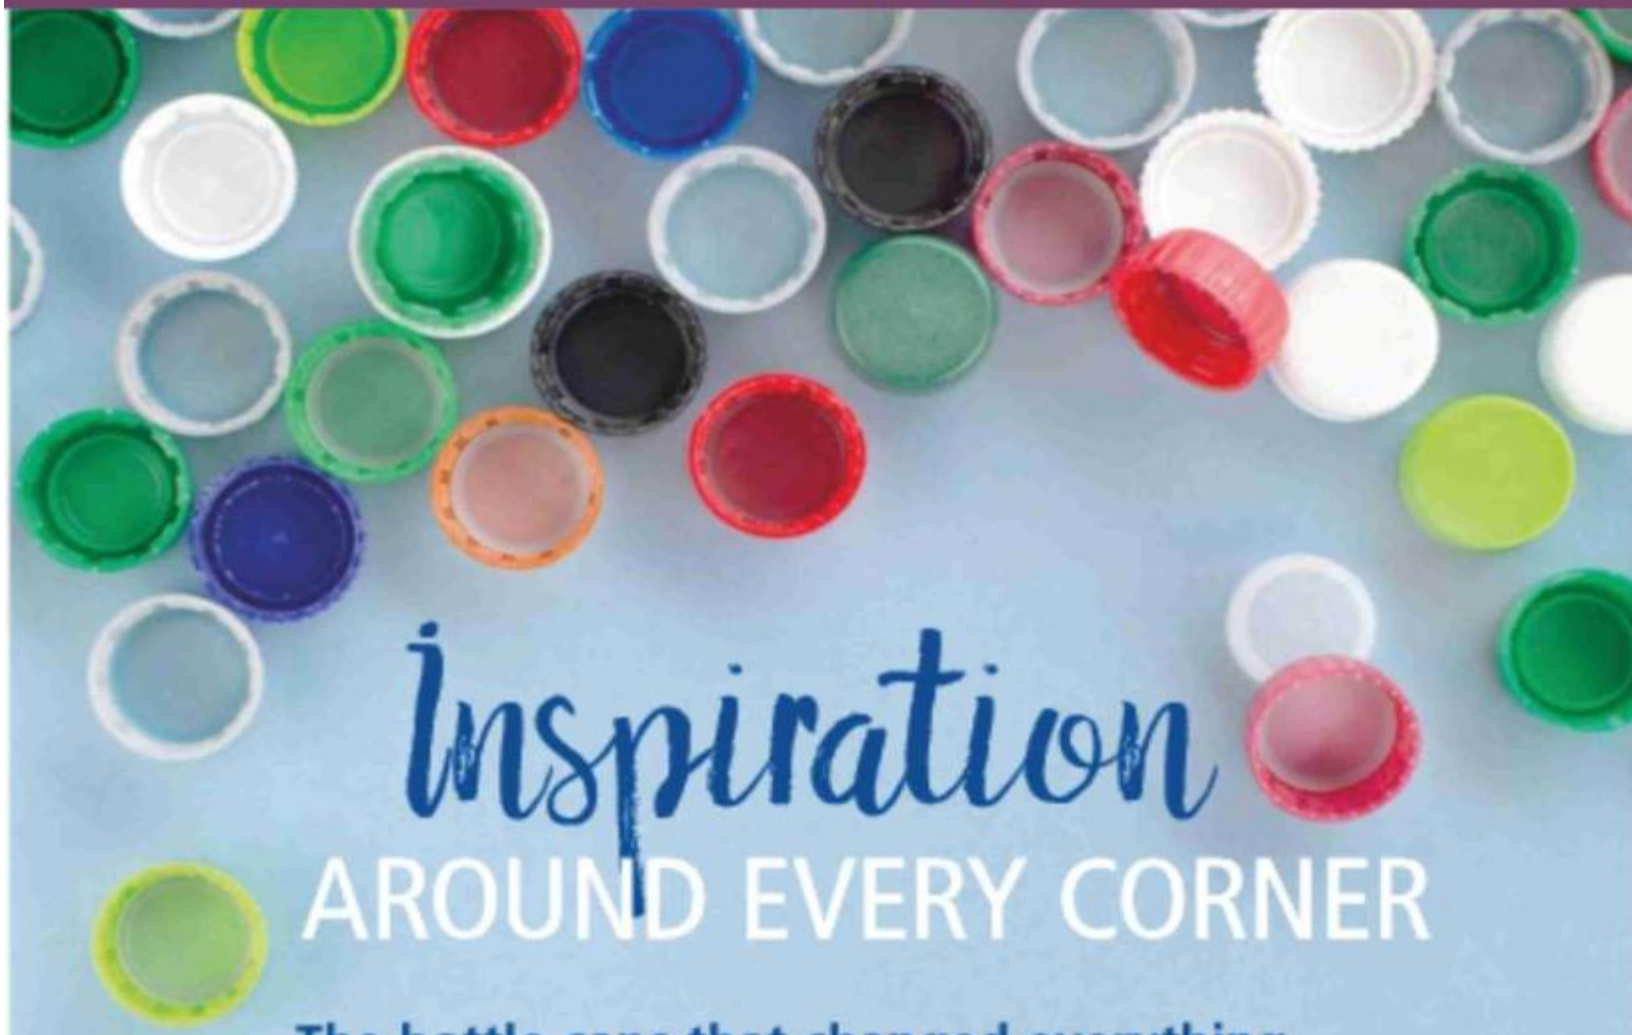
Let us continue going extra mile in the path of services to prove that Rotary is Making A Difference.

Veeta Sharma



"Not all of us can do great things. But we can do small things with great love."

– Mother Teresa



Inspiration AROUND EVERY CORNER

The bottle caps that changed everything

When the Kissels, Heike and Dennis, met fellow German Rotarians (and former Rotaractors) Sandra Buehrke, Constanze Abendroth, and Lutz Olbrich during the 2013 Rotary International Convention in Lisbon, Portugal, something deeper than friendship was formed. A chance encounter at a House of Friendship booth featuring a bottle cap collection fundraiser led to dinner, where the idea sparked excited conversation to do the same at home.

Four years later, their group leads a successful nationwide effort for polio that has collected 150,000 kilograms of plastic bottle caps for recycling, providing funds for about as many polio vaccinations.

Find your inspiration at the Rotary Convention in Toronto. Register today at riconvention.org.
